Kriega was born in 2000 when two British product designers and motorcycle enthusiasts became frustrated by the lack of functional, well-designed luggage specifically for motorcycle riders and decided to do something about it.

They started with one backpack, which was an instant hit with motorcycle journalists and built the brand from there. Fast-forward nearly a quarter of a century and Kriega has earned global recognition for its unwavering commitment to premium quality, performance and design innovation.

Kriega's home base is situated in North Wales, where some of the United Kingdom's most breathtaking riding roads and off-road trails reside. The area is renowned for its 'unpredictable' weather, which makes an ideal testing ground for product development. Moreover, Kriega's network of ambassadors spread across the globe contributes invaluable feedback, refining materials and construction techniques to suit various climates, humidity levels and riding conditions.

Thanks to this worldwide perspective, each piece of Kriega luggage is meticulously crafted to elevate every riding experience, whether that's navigating the daily commute in Central London, a weekend ride-out on the canyon roads of California or exploring the remote outback of Australia.

#RIDEKRIEGA

THE ART OF CREATING EXCEPTIONAL PRODUCTS

CORDURA®

We use CORDURA® Advanced fabrics throughout the Kriega range. Recognised for their long-lasting durability and resistance to abrasions, tears and scuffs.

YKK® ZIPS

Arguably the best zips in the world, renowned for their performance and durability. YKK® are the only high quality coil zips we use on our products.

AIRCRAFT-GRADE

All Kriega metal, engineered parts are made from 6061-T6 aircraft-grade, hardened aluminum alloy providing dependable strength where it's needed.

HYPALON

Hypalon is a super-strong, abrasion-resistant, synthetic rubber mainly utilised in products designed for extreme use such as white water rafts.

WHITE LINERS

Waterproof compartments have a light-weight taped-seam liner, easily removable for cleaning and white in colour to help locate kit inside the pack.

DRYPACK

The roll-top Drypack (dp) closure is a tried and tested waterproof solution for soft luggage, giving the rider confidence to carry in all weathers.

Kriega[®]

10 YEAR GUARANTEE

A silhouette of a person standing on a motorcycle, with their arms raised in a gesture of triumph. The scene is set against a dramatic sunset sky with orange and yellow clouds. The person and motorcycle are positioned on a dark, rounded mound in the foreground.

Kriega's goal from day one was to build a reputation for the best quality products on the market, offering the highest standards of functionality and craftsmanship.

Kriega packs are constructed from some of the most technical fabrics available today. Add to that a strict attention to detail in the design and production process and you can be sure that Kriega products will exceed expectations.

The whole Kriega range is built to perform without exception. As a commitment to quality all packs are guaranteed for 10 years against defects in materials and manufacture.

Kriega[®]

THE ROAM COLLECTION

Hands across the Atlantic, from Wales to California we are delighted to be working in collaboration with **ROLAND SANDS DESIGN** on a collection of rider bags and accessory products that perfectly blend classic and modern materials, technical construction and function. The ROAM Collection features materials unique to each brand, and together allow for truly amazing product. Including RSD's proprietary heavy duty waxed cotton and Kriega's QUADLOC-Lite™ harness system. The ROAM collection was created to offer bag and accessory solutions to riders who appreciate design aesthetic and branding that is subdued, clean and timeless.

A blurred background of a city street at night, with a motorcycle in the foreground. The motorcycle is black with a prominent red wheel rim. The background shows a building with horizontal lines and a car with its taillight glowing red. The overall scene is in motion, creating a sense of speed and urban activity.

THE ORIGINAL

Year 2000, Kriega launch the first ever motorcycle-specific backpack with the pioneering QUADLOC™ Harness to critical acclaim. Today the QUADLOC™ Harness is still a major feature on all Kriega backpacks and remains unrivalled in the industry.

The innovative design redistributes weight from the shoulders to the chest and torso, giving all-day riding comfort, even with heavy loads. The shape is ergonomically tailored exclusively for motorcycle use to allow comfortable, unhindered arm mobility while riding.

The **QUADLOC™** Harness provides extra padding for larger capacity packs, while the **QUADLOC-Lite™** Harness is more agile for the smaller packs in the Kriega range.

PACK ACCESSORIES

HYDRATION RESERVOIRS

3L HEAVY DUTY RESERVOIR

Made of ultra-durable, abrasion resistant TPU with RF-welded seams for superior strength and elasticity. Fully reversible for deep cleaning and drying. Compatible with all Kriega Backpacks.

Hydrfusion Tube Flexible drink tube insulates in hot weather and offers protection in tough conditions.

Comet™ Bite Valve & Dust Cover Lightweight valve self seals after each sip and can be opened and locked with one hand to prevent leaks when not in use. Included dust cover protects the silicone bite valve from collecting dirt.

Plug-N-Play Connect System Easily disconnect the drink tube (an auto shut off valve prevents leaking) and remove the reservoir from your pack for convenient refilling.

Tube Management Hook & Loop harness mount included for Kriega Quadloc and Quadloc-Lite harnesses.

HYPAKEHD3

HydraPak

2L SHAPE-SHIFT™ RESERVOIR

Shape-Shift™ baffle locks for a slim profile and increased stabilization; unlocks for full volume. 2L / 70 fl oz unlocked - 1.5 litre / 50 fl oz locked.

Slide-Seal™ top opens wide for easy filling and closes tight for a leakproof seal.

High-flow Blaster™ bite valve self seals after each sip and features a twist on/off bar to prevent leaks when not in use.

Plug-N-Play™ connect system lets you easily disconnect the drink tube (an auto shut off valve prevents leaking) and remove the reservoir from your pack for convenient refilling.

Fully reversible for easy cleaning and drying, top-shelf dishwasher safe.

Tube Management Hook & Loop harness mount included for Kriega Quadloc and Quadloc-Lite harnesses.

HYPAKSS2

HANDS-FREE KIT

Designed for racing conditions when it's safer to keep both hands on the handle bars and concentrate on riding. This kit positions the soft bite valve of the hydration tube permanently near the riders mouth, giving fast & safe 'Hands-free' hydration.

- White silicone tube with Kriega branding
- Soft bite valve
- Easy-fit – Velcro® tab tube management
- Quick-release dry-break connector

KAHFV

CHRIS BIRCH POCKET

Developed in conjunction with legendary KTM Adventure Bike Rider and Kriega Ambassador, Chris Birch. This extremely handy pocket provides easy access storage at your finger tips. Fit to a KTM 790 / 890 Adventure screen mount (pre 2022 models only) or most bike handle bars.

Alternatively mount on the left side of backpack harness, waist pack or messenger bag strap with the 'hook & loop' quick release closure. Ideal for carrying sun glasses, a wallet or a smart phone including the larger models.

Fits all Kriega rider packs (excluding R35)

180H x 95W x 35Dmm
7H x 3.7W x 1.3D inch

WEIGHT
110g / 3.8oz

KKCBHP

OS-TOOL ROLL CHRIS BIRCH EDITION

The 'Big Brother' to the standard Kriega Tool-Roll, with enough width to accommodate Motion-Pro type tyre leavers and an alternative to elastic loops storage with heavy-duty zipped pockets and socket rail design. This Chris Birch Edition features an orange inner sleeve and 'Say No to Slow' branding.

- 1000D CORDUA® construction
- 2 x 1L pockets with YKK zips
- 6061-T6 alloy socket rail with 8 x 3/8" clips
- YKK® zipped Hypalon mesh pocket
- Inner sleeve pocket for smaller items
- Hook closure with adjustable cam
- Optional 1/4" and 1/2" socket rails (sold separately)

KAOSS

OS-STRAPS

Mount a pair of OS-PANNIERS as traditional over the seat saddlebags

- Length adjustable
- Aircraft grade alloy buckles

KOSS

OS-CAM STRAPS

Hook onto OS-RACK LOOPS or OS-SOFT PANNIERS for attaching roll-top bags, tents, or a spare jacket. The 'Hook-back' feature also allows you to mount one end around a bike frame or grab rail.

- 2 x 1.3m (50inch) long, high quality 25mm webbing.
- Moulded Acetal buckle
- Ultra-aggressive spikes on cam grip even when wet
- Aircraft grade alloy hooks

sold as a pair

KAOSCS

OS-MINI CAM STRAPS

Attach a roll mat, tent, tripod etc. to a US-40 RACKPACK or an OS- SOFT PANNIER

- 46cm / 18inch max length 25mm webbing.
- Acetal cam buckles.
- Ultra-aggressive spikes on cam
- Aircraft grade alloy hooks

KAOSMC

ADVENTURE BIKE LUGGAGE OS-ACCESSORIES

OS-BOTTLE

A versatile, heavy-duty bottle holder

- Carry 2 x 1L Water / Fuel Bottles
- Hook-on to an OS-PANNIER, OS-BASE or US-40
- Mount on an OS-PLATFORM
- Mount on a tank with the Kriega TANK CONVERTER
- Ultra-tough HYPALON construction
- Max bottle size 80mm dia x 280mm long (3 x 11 inch)

KOSBOT

STEELCORE SECURITY STRAP 4.5ft

Lockable straps with SEW (steel encased webbing) harder to cut through than steel cable alone. Secures the OS-SOFT PANNIERS to the bike to help prevent theft or access to the bags

BLACK - KSCSS-BK

ORANGE - KSCSS-OR

OS-HEEL PLATES

Provides a strong and lightweight mounting location for OS-BASE lower straps on a KTM 690 / HUSQVARNA 701 / GASGAS 700

Ultra durable CNC machined Nylon-6
High impact resistance
Uses standard fitting hardware

KOSHP

OS-DIRTBIKE RINGS

Provides a secure mounting location for front luggage straps where there are no obvious attachment points

- 25mm Velcro® ONE-WRAP® reusable ties
- Lightweight 6061-T6 alloy rings
- Universal-fit for other soft luggage systems

KOSDBR

OS-FOOTREST ELIMINATORS

Gives the option to remove the rear pillion footrests and still have a front mounting location for an OS-BASE on the following bikes:

YAMAHA T700 Standard or Rally Seat
KTM 790/890
HUSQVARNA NORDEN 901

T700 STANDARD SEAT - KOSFEYS

T700 RALLY SEAT - KOSFEYR

KTM 790/890 & NORDEN 901 - KOSFEKH

ADVENTURE BIKE LUGGAGE OS-ACCESSORIES

OS-RACK LOOPS

The ultra-lightweight alternative to a rear luggage rack. Aircraft grade alloy and laser-cut Hypalon construction. Unique low-profile fasteners fit any style bodywork, even rear fuel tank bikes.

- Hook-on US-DRYPACKS / OS-ADVENTURE PACKS or ROLLPACKS
- Perfect for mounting roll-top bags and tents
- Ultra secure whatever the terrain
- Lightweight T6 alloy - only 25g (0.8oz) per loop
- Easy fit, just drill 4 x 6mm holes

KOSRL

OS-RACK LOOPS-KTM

KTM OEM rear rack* version of standard OS-RACK LOOPS to allow easy hook-on of US-DRYPACKS or OS-ADVENTURE PACKS or ROLLPACKS (*1090, 1190 & 1290 Top Case Carrier)

KOSRLK

SUBFRAME LOOPS

Provides a strong hook-on location to mount OS-ADVENTURE PACKS / US-DRYPACKS / ROLLPACKS to most types of bike. Simply thread around the bike subframe and back through the buckle. 4 x 500mm (20 inch) lengths of webbing with loop and buckle at one end.

KASLB4

CAM STRAPS

2 x Heavy-duty nylon Cam straps idea for attaching roll-top bags, tents etc. Moulded Acetal buckles with ultra-aggressive grip-spikes on cam for non-slip web, even with heavy loads and wet straps.

1.5M (5ft) long, high quality 25mm webbing
